# MGS 2017-2018 BOARD OF DIRECTORS

## *Officers*

<b>President</b>	David Hancock	Roundtree & Assoc.	<a href="mailto:david@roundtreeinc.com">david@roundtreeinc.com</a>	(601) 355-4530
<b>1st Vice President</b>	David Dockery	MDEQ	<a href="mailto:ddockery@mdeq.ms.gov">ddockery@mdeq.ms.gov</a>	(601) 961-5171
<b>2nd Vice President</b>	Joe Johnson	Spooner Petroleum	<a href="mailto:jjohnson@spoonercompanies.com">jjohnson@spoonercompanies.com</a>	(601) 969-1831
<b>Treasurer</b>	Bill Bagnall	BLM	<a href="mailto:wbagnall@blm.gov">wbagnall@blm.gov</a>	(601)-977-5417
<b>Webmaster</b>	Steve Walkinshaw	Vision Exploration	<a href="mailto:steve@visionexploration.com">steve@visionexploration.com</a>	(601) 607-3227
<b>Advertising</b>	Matt Caton	Tellus Operating	<a href="mailto:mcaton@tellusoperating.com">mcaton@tellusoperating.com</a>	(601) 898-7444
<b>Editor</b>	Matt Caton	Tellus Operating	<a href="mailto:mcaton@tellusoperating.com">mcaton@tellusoperating.com</a>	(601) 898-7444

## *Boland Scholarship*

<b>President</b>	David Hancock	Roundtree & Assoc.	(601) 355-4530
<b>Secretary</b>	Dave Cate	Pruet Oil	(601) 948-5279
<b>Members</b>	Joe Johnson	Spooner Petroleum	(601) 969-1831
	Tony Stuart	Venture Oil & Gas	(601) 428-7725
	James Starnes	DEQ	
	Bob Schneeflock	Geodigital Consulting	(601) 853-0701

## *Honorary Membership*

<b>Chairman</b>	Charles H. Williams, Jr. Vaughey & Vaughey		(601) 982-1212
<b>Members</b>	E. Ralph Hines	Moon-Hines	(601) 572-8300
	Jerry Zoble	Independent	

## *MGS Representatives*

<b>AAPG</b>	Maurice Birdwell	Independent	(601) 936-6939
<b>GCAGS</b>	Danny Harrelson	U.S. Army R&D	(601) 634-2685

## *Other*

<b>Environmental</b>	John Ryan	Allen	(601) 936-4440
<b>Historian</b>	Stanley King	Independent	(601) 842-3539

# PRESIDENT'S LETTER

*David Hancock*

Well, another MGS calendar year has rolled around. As I write, Hurricane Harvey has flooded the Corpus Christi, Houston and Beaumont region. Clean up is only now beginning. Some of our Society members live in the affected areas and many of us have friends and business associates in the area. Our thoughts and prayers go out to all those affected.

Your officers have met and are in the process of securing speakers for the upcoming year. Some interesting topics and speaker suggestions were discussed and we hope to deliver on some outstanding talks. In the meantime, if anyone has any speaker suggestions, let us know.

A big shout out to fellow member Steve Walkinshaw for compiling and uploading all the MGS minutes, bulletins and photo albums for the entire history of the Mississippi Geological Society. I especially enjoyed going through the 1981 photo directory. It sure brought back a lot of memories.

Finally, I want to encourage each of you to attend the Fall Bar-B-Q at The Yacht Club, Thursday, September 14. I will be on a trip that we put down an initial deposit on 1 ½ years ago, so I will miss all the festivities. Make a special effort to be present as our attendance for the Fall and Spring events has been sparse of late. In order to have a vibrant Society, we need to maintain and grow our membership. Most of our membership loss has been due to the fact that the oil industry is not nearly as represented in Jackson as it has been in years past. That we cannot control. We do however have other geological disciplines that would benefit from an association with the Society. Toward that end we will try to have some interesting discussions on topics that would appeal to all disciplines. I would also encourage each of you to invite those geologists that are still active and continue their membership, but do not attend the monthly meetings and other sponsored events. Don't make me start naming names. Anyway, I'll get off my soap box and wish each of you a fun and prosperous year ahead.

David Hancock

# 2017-2018 MGS MEETING SCHEDULE

When	What/Who	Where
<b>September 14, 2017</b>	<b>Fall BBQ</b>	<b>Jackson Yacht Club-5:30pm</b>
October 12, 2017	TBD	River Hills – 11:30am
November 9, 2017	TBD	River Hills – 11:30am
TBD	TBD	TBD
January 11, 2018	TBD	River Hills – 11:30am
February 8, 2018	TBD	River Hills – 11:30am
March 8, 2018	TBD	River Hills – 11:30am
April 12, 2018	Boland Scholarship Awards	River Hills – 11:30am
May 10, 2017	Spring Fling	Jackson Yacht Club– 5:30pm

# FALL BBQ

## *Jackson Yacht Club*

**Come join the Mississippi  
Geological Society to kick off  
2017-2018 at our annual  
Fall BBQ!!!!!!**

**Thursday September 14th  
Jackson Yacht Club  
5:30 Start**

# MISSISSIPPI GEOLOGICAL SOCIETY

## *A Brief History*

The Mississippi Geological Society was founded on November 28, 1939 by 38 of the 57 petroleum geologists then employed in Jackson, Mississippi. The state had just emerged as a significant oil and gas province following the discovery of large (200+ MMBO) oil reserves in Tinsley Field earlier in the year. The Society was organized with the stated purpose of "the stimulation of interest in geology and related sciences..., the encouragement of scientific research among members..., and the discussion and dissemination of geological information".

From its inception, the Society has pursued the attainment of its goals and stated purpose through the continued sponsorship of field trips, technical presentations, publications, and involvement in community affairs.

Throughout the years, the Society has sponsored twenty field trips, each with an accompanying guidebook. Copies of several of the more popular field trip guidebooks are available via the Society's Publications department. Some of the more recent field trips have been undertaken in conjunction with a seminar covering the subject of the trip.

In April 1941, the Society became affiliated with the American Association Of Petroleum Geologists (AAPG). Ten years later (1951), the Society joined the Gulf Coast Association Of Geological Societies (GCAGS). MGS hosted the AAPG sectional conventions in 1946 and 1949, and GCAGS/GCS-SEPM conventions in 1955, 1960, 1968, 1975, 1983, and 1992.

Involvement in research and technical projects has always been a hallmark of the Society. In 1945, MGS was instrumental in the oversight and assembly of data for the new and revised Geological Map of Mississippi. Similarly, the Society also established the MGS Library in 1945 in order to assist geologists and students in the pursuit of their research. The Student Award Program was instituted by the Society in 1947 to recognize outstanding geologic papers originated by students majoring in geologic disciplines at the state's colleges and universities.

In 1954, the Society embarked upon the first of many financial assistance programs with the establishment of its Student Loan Program, which was designed to provide support to selected college students majoring in geology throughout the state. This was followed in 1955 with the Society's awarding of scholarships to deserving high school winners in the Science Fair that was sponsored by the Mississippi Academy Of Science. More recently, the Lawrence Boland Memorial Scholarship Fund, established by the Society in 1980, has celebrated over twenty years of annual scholarship awards to one student from each of the four colleges and universities in the state that support a significant geology curriculum. Finally, the MGS Student Award Program and the MGS Student Assistance Program continue to recognize and provide assistance to outstanding students in the field of geology throughout the state's educational system.

# MISSISSIPPI GEOLOGICAL SOCIETY

## *A Brief History*

From the early days of the Society to the present, publications have played a major role in the attainment of the purpose of the Society as set forth in its Constitution. Besides the field trip guidebooks already mentioned, other MGS publications include a number of composite and basin type logs, correlation sections, and structural / stratigraphic cross-sections. More importantly, the Society has published a series of field studies since 1952, when it first released a compendium of Wilcox oil fields, including field maps, reservoir information, and production data. The Society followed its Wilcox volume with the release of its original "Redbook" - focusing on producing fields throughout the rest of the state - in 1957. Since that time, the Society has updated its Wilcox volume and released eight successive updates to the popular Redbook, with the last having been released in 1995. In addition, MGS publishes a monthly Bulletin that is distributed to all members during the Society's active months. Finally, this website has been created in order to enable the Society to utilize the internet in distributing relevant news, geologic articles, and other materials of interest to its members and the public at large.

Technical programs and seminars have been sponsored by the Society since its inception. Seminars have focused on the Cambro-Ordovician Knox Gas Play in the Black Warrior Basin of Northeast Mississippi, salt tectonics, local sequence stratigraphy and relationship to outcrops, and the Cotton Valley Gas Play within the Mississippi Interior Salt Basin. MGS also hosts monthly luncheon meetings, held from September through May of each year, where a variety of speakers give technical presentations on topics and issues of interest to the Society's members.

During the late 1970's and early 1980's, when oil and gas exploration and production peaked in the state, membership rose to its highest level with approximately 500 members. The Society has made a special effort in recent years to encourage membership and participation by non-petroleum geologists, and currently counts a significant number of environmental, hydrological, and governmental professionals among its members. Emphasis on water quality and sensitive environmental issues, as well as the preservation of subsurface data throughout the state, have been and will continue to be important focus issues for the Society.

In the summer of 1985, the Society sponsored a field trip of historical significance when Fred Mellen led a group of MGS members on foot to traverse the very hillsides of Yazoo County that he had mapped 47 years previously in his discovery of the large surface anticline that later became the giant Tinsley Field. Four years later, the Society and other petroleum-related organizations in Mississippi sponsored a celebration of the 50-year anniversary of the discovery of Tinsley - the state's first commercial oil field - and the subsequent founding of the Society. Sadly, Fred Mellen is no longer with us, but his legacy - like that of so many other prominent MGS members - will endure.

Today, despite the cyclical nature of the oil and gas business and the continuing evolution of the other equally important geologic professions within the state of Mississippi, the same purpose and vision that originated the Society continues to propel it into the future, due to the strong foundation of a committed membership and adaptation to changing conditions in a remarkably diverse geological field.

# MGS QUIZ

## Who is this prominent MGS member?

Hint\* Photo is from a Master's Thesis, taken in Independence Co., Arkansas in 1968.

## MISSISSIPPI ACADEMY OF SCIENCES

### Geology & Geography Division

82<sup>nd</sup> Annual Meeting, 22–23 February 2018

### ***Call for Abstracts: Deadline 11/15/2017***

We are soliciting presentations on any earth science topic, including | geology, geography/GIS, paleontology, hydrology, meteorology, geological/geotechnical/environmental/water-resources engineering, and environmental science.

To submit, go to <http://msacad.org/submit-an-abstract/submit-on-line>

Come interact with your Mississippi geoscience colleagues!

*Cash awards (\$100 each) for best undergraduate and graduate student presentations, thanks to the generous support of the Mississippi Geological Society*

Questions? Contact Tyler Berry [tberry@mdeq.ms.gov](mailto:tberry@mdeq.ms.gov) or Andy O'Reilly [aoreilly@olemiss.edu](mailto:aoreilly@olemiss.edu)

# MONTHLY POST

## *Dr. David T. Dockery III RPG*

### **MDEQ Office of Geology Adds Smackover Brown Dense Limestone Cores from Four Wells to Inventory**

David T. Dockery III, RPG, and Paul Parrish, RPG, MDEQ Office of Geology

Mississippi State University and the University of Louisiana at Lafayette are applying for a US Department of Energy grant for unconventional resources and have requested a letter of support in the use of MDEQ Office of Geology's Core and Sample Library. The main objective of their work will be the Tuscaloosa Marine Shale, but MSU would like to include other unconventional plays such as the Brown Dense Limestone of the Smackover Formation. Figure 1 shows USGS geologists examining cores for potential unconventional resource utilization at MDEQ's Core and Sample Library.

Figure 1. Paul Hackley (left), Brett Valentine (center), and Celeste Lohr of the U.S. Geological Survey examining samples at MDEQ's Core and Sample Library in Jackson on March 2, 2015.

# MONTHLY POST

## *Dr. David T. Dockery III RPG*

Brian Coffey of Apache Corporation's Exploration and Production Technology Geoscience division contacted the Environmental Geology Division of the Mississippi Office of Geology on July 25, 2017. He stated that he had cores from the "Brown Dense" from Clarke and Wayne counties in Mississippi. The proprietary holding time for those cores had run out, and they were looking to place them with an entity that would house them and make them available for research. Originally, his bosses were looking to donate them to Texas A&M's graduate department. Mr. Coffey believed the best utilization of the cores for research would be in the state from which they came. When Coffey told his superiors that we did not charge any housing or donation fees, they were more inclined to send the cores to the Environmental Geology Division. Cores from four wells in Wayne and Clarke counties arrived from Texas on August 28, 2017 on five pallets with a total weight of 5,625lbs (Figure 2).

Figure 2. Offloading 5,625 pounds of core of Smackover Brown Dense Limestone from 4 wells in Wayne and Clarke counties, Mississippi, at MDEQ Office of Geology's North West Street office on August 28, 2017.

## MONTHLY POST

### *Dr. David T. Dockery III RPG*

The first well is the Blackstone 35-16 #1 (15,394 – 15,582.2 feet). The second well is the Farrar 13-12 #1 (14,340 – 14,492.3 feet). The third well is the M.H. Hall 33-16 #1 (14,640 – 15,084 feet). The fourth and final well is the Stewart 20-3 #1 (14,250 – 14,316.3 feet). The Environmental Geology Division staff are currently getting the cores catalogued and re-boxed for storage at the North West

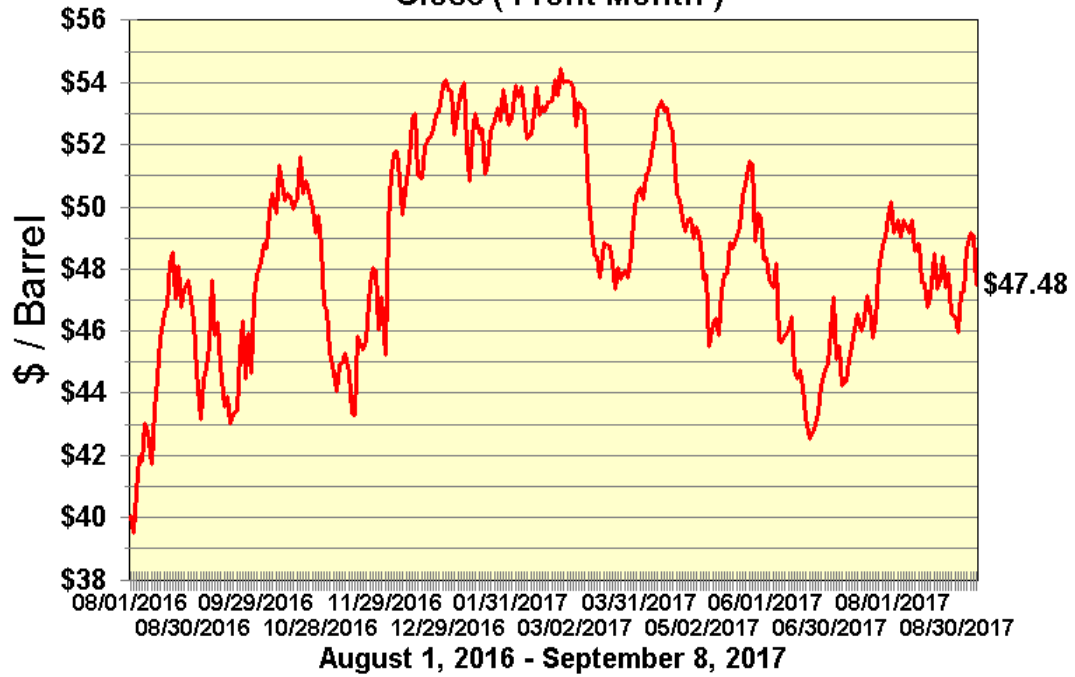

Figure 3. Reboxing and cataloguing newly received Smackover Brown Dense Limestone cores at MDEQ Office of Geology's North West Street office.

# BOLAND SCHOLARSHIP WATCH

Faculty & Students,

This is a new year and the Mississippi Geological Society along with the Boland Scholarship Fund would like to remind you that we want to honor the most outstanding overall students for the 2017-2018 year.

Each year, the Boland Scholarship awards 1 student from each institution a check that rewards students for their hard work and dedication to the Geosciences and their community.

We look forward to a great year and hope to see you at our monthly meetings.

Best Regards,

Matt Caton  
Editor

THE UNIVERSITY OF  
SOUTHERN  
MISSISSIPPI

MILLSAPS  
COLLEGE

# GEOLOGY POST

## ARTICLES, PAPERS or NEWS?

**ATTENTION!!!!!!** Industry, Professors and Students:

I am adding a dedicated section that includes more content from the industry and our schools.

Submissions can include anything from professional papers, thesis abstracts, job opportunities to pictures. Anything!!!!

If you have any information or news you would like to share with the Society **PLEASE** email them to the MGS Editor at:

[mcaton@tellusoperating.com](mailto:mcaton@tellusoperating.com)

Thanks & Regards,

Matt Caton  
Editor

# **2017-2018 BOLAND FUND DONATIONS**

**Maurice Birdwell  
Joe White  
Louis J Lyell**

Thanks for your generous donations to the 2017-2018 Boland Fund

# GEO LINK POST

**USGS TAPESTRY OF TIME AND TERRAIN** <http://tapestry.usgs.gov> The CCGS is donating to all of the 5th and 6th grade schools in the Coastal Bend. Check it out—it is a spectacular map. You might want a framed one for your own office. The one in my office has glass and a metal frame, and it cost \$400 and it does not look as good as the ones we are giving to the schools. Call Owen 510-6224 if you want one for your office for \$150. Duncan, Mike, Chris, Dave, Bob Randy, Seb., Kevin, Ken, Craig, Patrick, Robert.

**FREE TEXAS TOPO'S** <http://www.tnris.state.tx.us/digital.htm> these are TIFF files from your state government that can be downloaded and printed. You can add them to SMT by converting them first in Globalmapper. Other digital data as well.

**FREE NATIONAL TOPO'S** [http://store.usgs.gov/b2c\\_usgs/b2c/start/\(xcm=r3standardpitrex\\_prd\)/.do](http://store.usgs.gov/b2c_usgs/b2c/start/(xcm=r3standardpitrex_prd)/.do) go to this webpage and look on the extreme right side to the box titled TOPO MAPS DOWNLOAD TOPO MAPS FREE.

<http://www.geographynetwork.com/> Go here and try their top 5 map services. My favorite is 'USGS Elevation Date.' Zoom in on your favorite places and see great shaded relief images. One of my favorites is the Great Sand Dunes National Park in south central Colorado. Nice Dunes.

<http://antwrp.gsfc.nasa.gov/apod/astropix.html> Astronomy picture of the day — awesome. I click this page everyday.

<http://www.spacimaging.com/gallery/ioweek/iow.htm> Amazing satellite images. Check out the gallery.

<http://www.ngdc.noaa.gov/seg/topo/globegal.shtml> More great maps to share with kids and students.

[www.geo.org](http://www.geo.org) Don't forget we have our own web page.

<http://micro.magneet.fsu.edu/primer/java/scienceoptiscu/owersof10/>

<http://asterweb.jpl.nasa.gov/galery/default.htm> Great satellite images of volcanoes

<http://terra.nasa.gov/gallery/> More here

[www.ermapper.com](http://www.ermapper.com) They have a great free downloadable viewer for TIFF and other graphic files called ER Viewer.

[www.drillinginfo.com](http://www.drillinginfo.com) This is an incredible (subscription) well and completion data service for independents. Can be demo'ed for free.

<http://terraserver.com/> Go here to download free aerial photo images that can be plotted under your digital land and well data. Images down to 1 meter resolution, searchable by Lat Long coordinate. Useful for resolving well location questions.

<http://www.fs.fed.us/gpnf/volcanocams/msh/> This is a live cam of Mt. St. Helens refreshed every 5 minutes. At the bottom are old videos of past eruptions in this cycle. It is worth a watch especially now.
